TW PROFILE 8

OUR VALUES AND YOU. ALTOGETHER GREATER.

MANAGER COMMENTARY

The TW PROFILE 8 returned 1.89% in August and outperformed the IA Flexible Investment sector, which rose 1.53%. The profile has returned 7.05% year to date and 17.17% since inception[‡].

The response to the Brexit vote by the UK bond and equity markets has been unequivocally positive. The rejuvenated Tory cabinet under the new leadership of Theresa May is now empowered to negotiate better terms of trade with Europe and develop stronger ties with the rest of the world. The Governor of the Bank of England has also played a key role in the change in investor sentiment. The BOE cut interest rates to the lowest level in its history and reduced the Bank Rate to 0.25%. It also announced a further £170 billion worth of quantitative easing measures, including gilt and corporate bond purchases aimed at lowering the cost of borrowing. The mid-cap FTSE 250 rallied 2.60% and the large-cap FTSE 100 climbed 0.85% after reaching a twelve month high of 6,941. Equity markets throughout Asia rose as the Hang Seng and Nikkei 225 gained 4.96% and 1.92% respectively. The S&P 500 was marginally lower and fell -0.12% following hawkish comments from the Chair of the US Federal Reserve citing a "positive outlook for economic activity and inflation". The US Treasury market sold-off as a result, but government bond yields in the UK and Europe remain at near record lows. Volatility in the foreign exchange markets increased marginally and sterling appears to have found a near-term base. The pound fell -0.55% versus the Euro and -0.67% against the US dollar to close at 1.314. Commodity markets were mixed and the GSCI climbed 1.50%. The price of oil rose 7.45%, but precious metals fell across the board on profit-taking. The summer months have been very kind to bond and equity investors. The "mythical uncertainties" created by the UK's decision to leave the European Union have yet to materialise and the further passage of time will likely bring clarity to a more balanced and robust economy.

PROFILE FACTSHEET

TW PROFILE 8

A “model portfolio” is a well-balanced combination of investments covering a range of asset classes and global markets that is structured to target a specific level of risk.

ABOUT TAVISTOCK WEALTH

Tavistock Wealth is authorised and regulated by the Financial Conduct Authority in the United Kingdom. The company manages the investment solutions provided to clients of the Tavistock Partnership. Our centralised investment approach provides individual investors with the benefit of collective buying power to ensure that the charges they incur for model portfolio management, platform fees and dealing are amongst the lowest in the industry. Tavistock Wealth manages a range of “model portfolios” designed to meet the long term needs of investors – TW PROFILES.

TW PROFILES

The TW PROFILES are a series of risk progressive “model portfolios” designed to cater for the varying risk appetite of different investors. Each TW PROFILE provides investors with multi-asset global coverage with wide diversification across equity, bond, commodity and property markets. The portfolios are comprised of a blend of actively managed strategies and passive index trackers. The management charge for each TW PROFILE is 0.175% per annum plus VAT.

INVESTMENT PHILOSOPHY

Asset allocation, rather than stock selection, is the key driver of risk and returns and the TW PROFILES are structured accordingly, in line with the Investment Association's Sector guidelines. Each TW PROFILE combines a 50% allocation to “best of breed” active managers with a 50% allocation to the Tavistock ACUMEN Portfolios. Each ACUMEN Portfolio invests in a highly diversified basket of ETFs providing cost effective and tax efficient exposure to global markets.

INVESTMENT POLICY

The investment policy of TW PROFILE 8 is to gain exposure through investment in a diversified portfolio comprised of both active and passive regulated collective investment schemes, transferable securities and cash. There is no minimum exposure to bonds and/or cash and the maximum equity exposure is 100%.

RISK PROFILE

TW PROFILE 8 is adventurous and targets a risk profile of 8 on a scale from 1-10, which can be characterised as “moderate to adventurous risk”. The portfolio is typically comprised of higher risk investments such as equities and commodities but will also contain a few medium risk investments such as bonds and property. The portfolio targets annualised volatility in the range of 10.6% to 12.0%. TW PROFILE 8 has a 50% allocation to a basket of actively managed funds and a 50% allocation to the passively managed ACUMEN Portfolios so that the overall risk profile is 8.

BENCHMARKS

The benchmarks for TW PROFILE 8 are 2.25 times three month Sterling Libor and the Investment Association's Flexible Investment sector over a rolling 12 month investment cycle.
